CARBON BLACK IN POLVERE E PERLINE PER MATERIE PLASTICHE

Type	Recommendation	Average Particle Size	World Famous Type		
			Orion	Cabot	Columbian
Carbon Black Bead 1000G	High end quality for coating	16±2	Special Black 6 S170	Monarch 1000 Black Pearls 1000	Raven 3500
Carbon Black Bead 3800G	Mid high end for coating, plastics & inks	19±2	Special Black 4	Monarch 800 Black Pearls 880	Raven 2500
Carbon Black Bead 2429G	General Purpose quality, well used in paint, inks, plastics, etc.	20±2	Printex V Printex U Printex 140 V	Regal 400R	Raven 1040 Statex 125
Carbon Black Bead 2419G	General Purpose quality, well used in paint, inks, plastics, etc.	24±2	Printex V Printex U Printex 140 V	Regal 400R	Raven 1040 Statex 125
Carbon Black Powder 2879F	Low DBP oil absorption quality with good fluidity and viscosity	20±2	HiBlack 900L Printex 95	Monarch 900	Raven 2500
Carbon Black Powder 2869F	Low DBP oil absorption quality with good fluidity and viscosity	21±2	HiBlack 50L Printex 85	Monarch 700 MogulL	Raven 2000
Carbon Black Bead 2869F	Low DBP oil absorption quality with good fluidity and viscosity	21±2	HiBlack 50L Printex 85	Monarch 700 MogulL	Raven 2000
Carbon Black Bead 2849F	Low DBP oil absorption quality with good fluidity and viscosity	24±2	Printex 45 HiBlack30L	Elfex 410/415	Raven 1000
Carbon Black Bead 5327F	Normal quality furnace carbon black. Commercial recommended	26±2	Printex 60	Black Pearls 570 Black Pearls 490 Monarch 570	-
Carbon Black Bead 5319F	Normal quality furnace carbon black. Commercial recommended	31±2	Printex 300	Black Pearls 430 Monarch 430	Raven L
Carbon Black Bead 5317F	Normal quality furnace carbon black. Commercial recommended	34±2	Printex 30	Black Pearls 280	Statex F12
Carbon Black Bead 15F	High purity for fiber application	29±2	Printex Alpha AS11	Black Pearls 3560i Elfex TP	Raven PFEB Raven P5
